LAW

Solar Winds

- . How it happened, and for how long
- . What we know about who was responsible
- . What may have been stolen
- . Why it happened
 - Potential enhancements to contractor cybersecurity requirements

Biden Administration Response

- \$10 billion in proposed funding to address Solar Winds
- -IT shared services at CISA and GSA
- -Improving security monitoring and incident response on federal networks
- -More hiring to support federal CISO and U.S Digital Service
- More robust information sharing of threat intel needed
- New recommendation by Cyberspace Solarium
 Commission for policy directive requiring threat hunting on defense company networks as contract requirement
- -Who conducts the threat hunting? Role of U.S. Cyber Command?
- -Questions about effectiveness of external scanning should be assessed (e.g., risk/rate of false positives)
- -Acceleration of timeline in Section 1739 of 2021 NDAA

Industrial Base - Title XVII - 52 provisions

Adds requirements

- Sec. 1716. Modifies requirements for Strategic Cybersecurity Program and evaluation of cyber vulnerabilities of major weapon systems
- Sec. 1716. Grants subpoena authority to CISA
- Sec. 1742. Requires DoD to assess components against CMMC framework; requires DoD to provide plan for implementing CMMC through contracts

Sets the groundwork for more robust actions

- Sec. 1714. Cybersecurity Solarium Commission
- Sec. 1736. Assessment of DIB cybersecurity sensor architecture plan
- Sec. 1737. Assessment of DIB participation a threat information sharing program
- Sec. 1739. Assessment of a DIB cybersecurity threat hunting program

Creates Infrastructure to prioritize cybersecurity

- Sec. 9001. Elevates the CISA Director from Level III to Level II SES
- Sec. 1752. Establishes the Office of the National Cyber Director
 - To include participation in National Security Council meetings at discretion of the President

Moshe Schwartz (Etherton & Associates) National Defense Authorization Act FY2021 – Key Cybersecurity Provisions

Sam Singer (Senior Counsel - Boeing)

Some context: Telecom infrastructure, national security, and the U.S. government's effort to reassert control

Section 889

- O What makes it different?
- o Compliance and the "double use" problem
- Third-party interconnections
- The Supply Chain Executive Order and the Commerce Department's Interim Final Rule
 - A new regulatory regime built on emergency powers?
 - How should companies manage compliance risk?

CMMC and DFARS Interim Rule: What Lies Ahead?

DOD ASSESSMENTS

- Verification of compliance with NIST 800 SP-171 controls
- Basic (Self) + Medium + High Assessments
- Impact on source selection, e.g., responsibility
- Subcontractor assessments
- CUI/CDI definitions
- Compliance/FCA risks

CMMC

- Go/No Go criterion
- Phased rollout to Oct. 2025
- OUSD A&S role
- Civilian agency implications (DHS, GSA)
- CMMC-AB developments
- Reciprocity issues
- Flow-down questions

Conclusion
