TED - Official Journal of the EU

ted.europa.eu

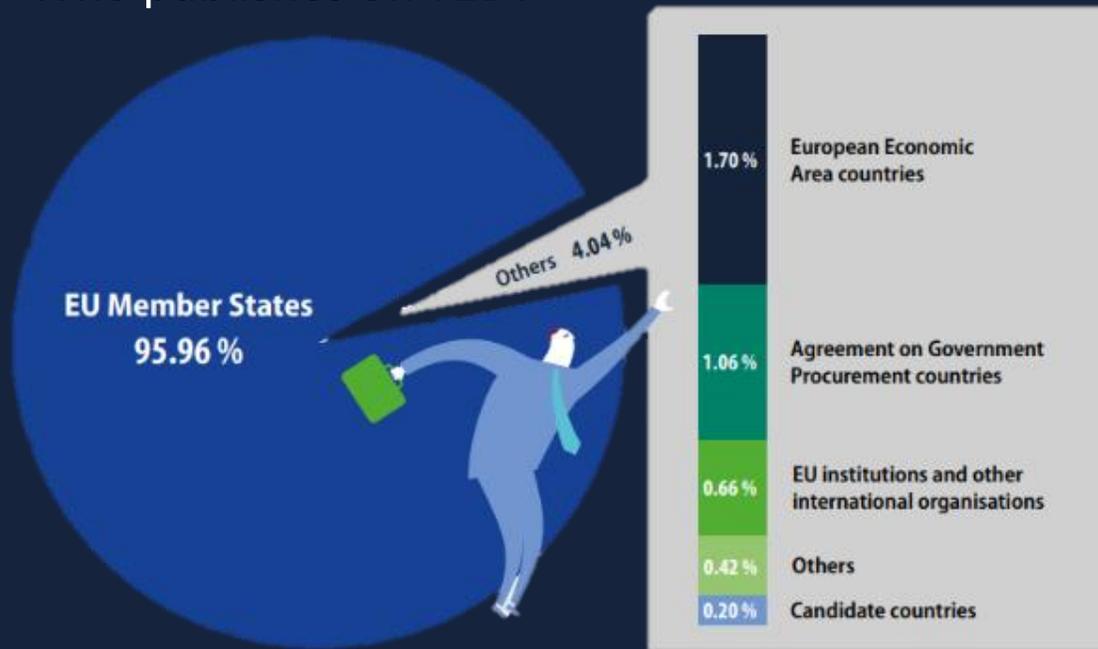

- Publications Office of the EU; Unit “TED and European Public Procurement”
 - TED = Tenders Electronic Daily - Online version of the Supplement to the Official Journal of the EU (OJ S)
 - The unit is responsible for ensuring the publication of the OJ S by managing the whole lifecycle of public procurement notices
- Goal: ensure transparency and competition in public procurement
- Recent changes:
 - eForms 100 %
 - New and improved TED website

The screenshot displays the TED website interface. At the top, the European Union logo and 'Log in' button are visible. The main heading is 'EU tenders', with a sub-heading 'Ted • tenders electronic daily' and 'Supplement to the Official Journal of the EU'. A search bar is prominently featured with the text 'Quick search in TED for notices'. Below the search bar, there are links for 'Advanced search', 'Expert search', and 'Browse by subject'. A central banner promotes 'Check out our video tutorials' with an illustration of a person using a megaphone. The page is organized into several columns: 'SIMAP' with general information and useful links; 'Official Journal Supplement' with the latest issue (S140/2025 on 24/07/2025) and a release calendar; 'Access other sites in the TED family' with links to eNotices2, TED Developer Docs, and TED Developer Portal; and 'What's new' with announcements for a registration workshop and a usability survey. A final banner at the bottom right promotes 'Workshops for reusers of TED data'.

EUROPE'S CHOICE

POLITICAL GUIDELINES
FOR THE NEXT EUROPEAN COMMISSION
2024–2029

Ursula von der Leyen
Candidate for the European Commission President

The new proposal will focus on:

1. Strengthening the **strategic role** of public procurement through **qualitative requirements**, and **European preference criteria for strategic sectors**
2. The **EU added value** of procurement for our citizens, through the **security of supply for strategic technologies, products and services**.
3. The **simplification** of mechanisms, having in mind especially **startups, innovators and local and regional authorities**.
4. The **consolidation and clarification of the interaction between public procurement provisions** across different pieces of legislation.

Standardisation activities

eForms

European Single Procurement Document (ESPD)

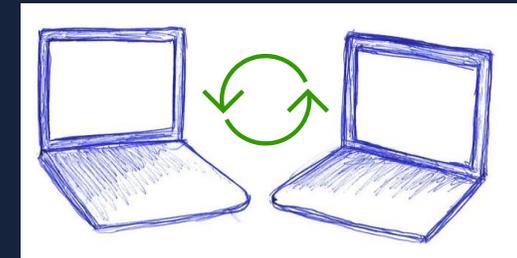

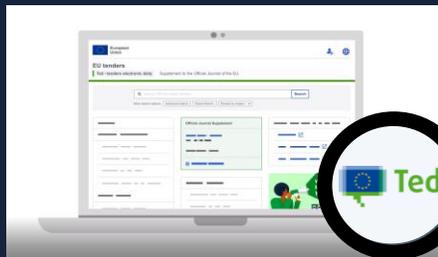

eProcurement Ontology (ePO)

- Standard vocabulary for Public Procurement
 - Including 73 code lists
- Machine and human readability
- Complete coverage of public procurement lifecycle
- Enables Linked Open Data
- Enables digital ready legislation

TED website & Search API

- TED Search API to perform searches and retrieve procurement data.
- Direct download: links for individual notices, in multiple formats.
- RSS feeds to keep users updated in real time.
- Bulk XML downloads for large-scale access.

All these options will retrieve / download notices

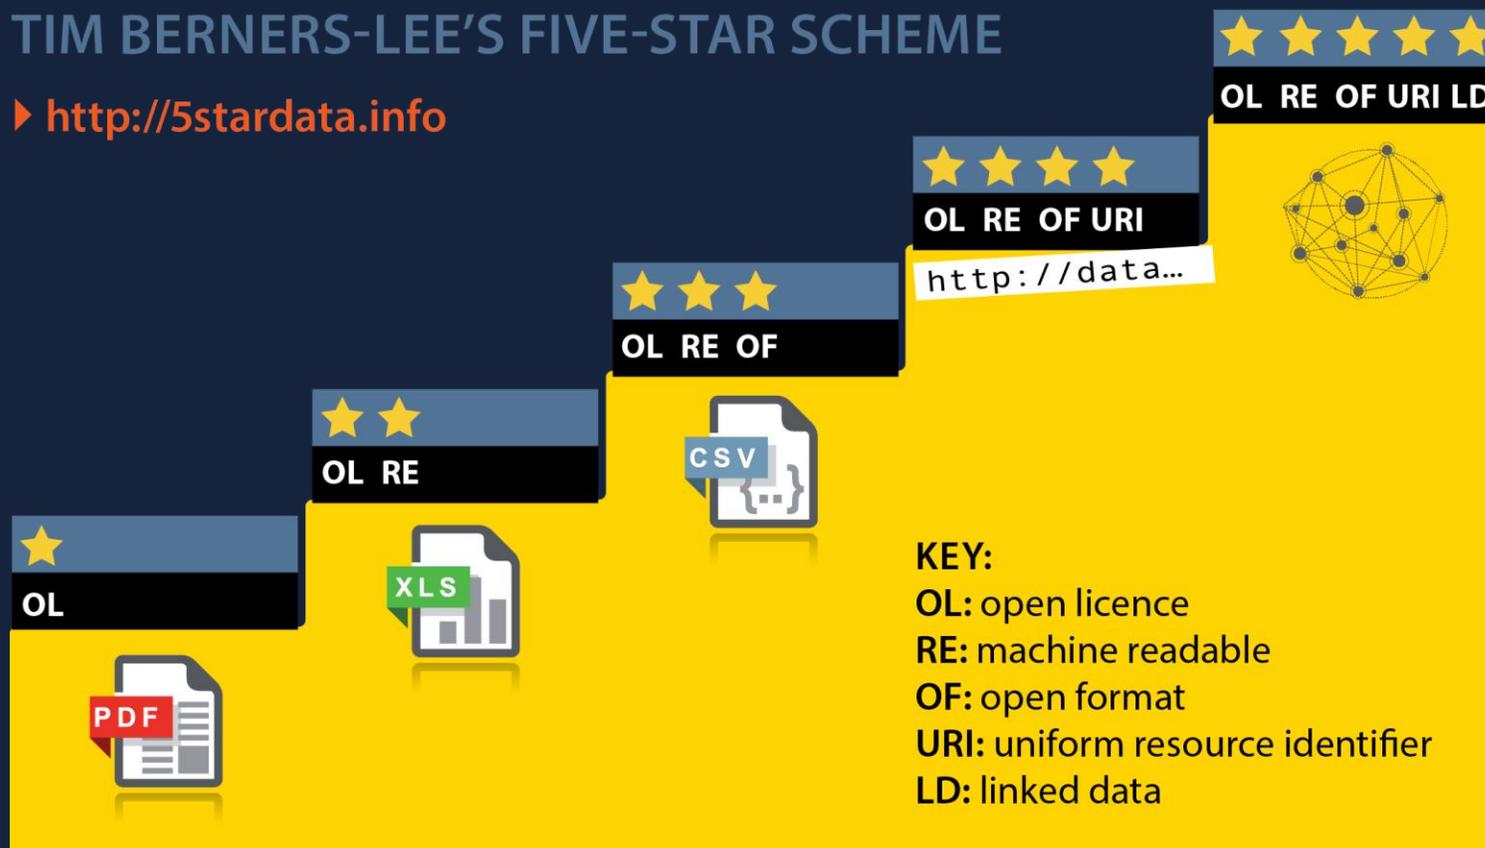

* *More information on the reuse possibilities can be found on the [Developer's Corner for Reusers](#) on the TED website.*

The screenshot displays the TED Open Data Service interface. On the left, a navigation menu lists various categories: Notices, Tenders, Contracts, Procedures (highlighted), Estimated amounts of procedures published on a specific date (highlighted), Purpose of procedures published on a specific date, Place of performance of procedures published on a specific date, Broad place of performance of procedures published on a specific date, Lots associated to a specific procedure, and Organisations. The main area shows a query editor with the following SQL query:

```
1 PREFIX epo: <http://data.europa.eu/a4g/ontology#>
2 PREFIX skos: <http://www.w3.org/2004/02/skos/core#>

14    epo:refersToProcedure ?procedureUri .
15
16  ?procedureUri epo:hasEstimatedValue [
17    a epo:MonetaryValue ;
```

Below the query editor, the results section is titled "Estimated amounts of procedures published on a specific date" and includes a description: "This query retrieves the estimated amount of a procedure as published in a notice on a specific date." A "Try this query" button is visible at the bottom right of the results area. The footer of the interface states "Developed by the Publications Office of the EU."

The Public Procurement Data Space (PPDS)

- **First connecting TED data with national data (eNotification)**
- **Based on the ePO, expanding to other areas of the procurement lifecycle**
 - Enables **easy access to public procurement data** to all user groups
 - Improves **monitoring of public procurement** in the EU
 - **Reinforces transparency**
 - Supports **improving data quality**
 - **Raises awareness** of the level of competition in public procurement
 - **Supports cooperation** between Member States and Commission
 - **Support a data-driven approach** for the revision of the legal framework

TED (Tenders Electronic Daily) is the 'Supplement to the Official Journal of the EU ("OJ S")', dedicated to European public procurement.

You will find information on public procurement contracts, according to the EU rules on public procurements, of notices published in EU Member States, European Economic Area (EEA) and beyond.

You can browse, search and sort procurement notices by country, region, business sector and more.

TED (Tender Electronic daily) website currently offers bulk downloads of XML packages, for registered users, in the page "Download XML Packages" (<https://ted.europa.eu/en/simap/xml-bulk-download>).

A subset of Tenders Electronic Daily (TED) data covering public procurement for the European Union and beyond from 2006-01-01 to 2023-12-31 in comma separated value (CSV) format. This data includes the most important fields from the contract notice and contract award notice standard forms, such as who bought what from whom, for how much, and which procedure and award criteria were used.

Generally, the data consists of tenders above the procurement thresholds. However, publishing below threshold tenders in TED is considered good practice, and thus a non-negligible number of below threshold tenders is present as well.

Please see the documentation below for important information on the data and its usage, including a version history of the export.

The European Commission is interested in the results of research on public procurement coming from the re-use of this data. Thus, we will be grateful to receive links to any papers, reports, or applications at GROW-G4@ec.europa.eu.

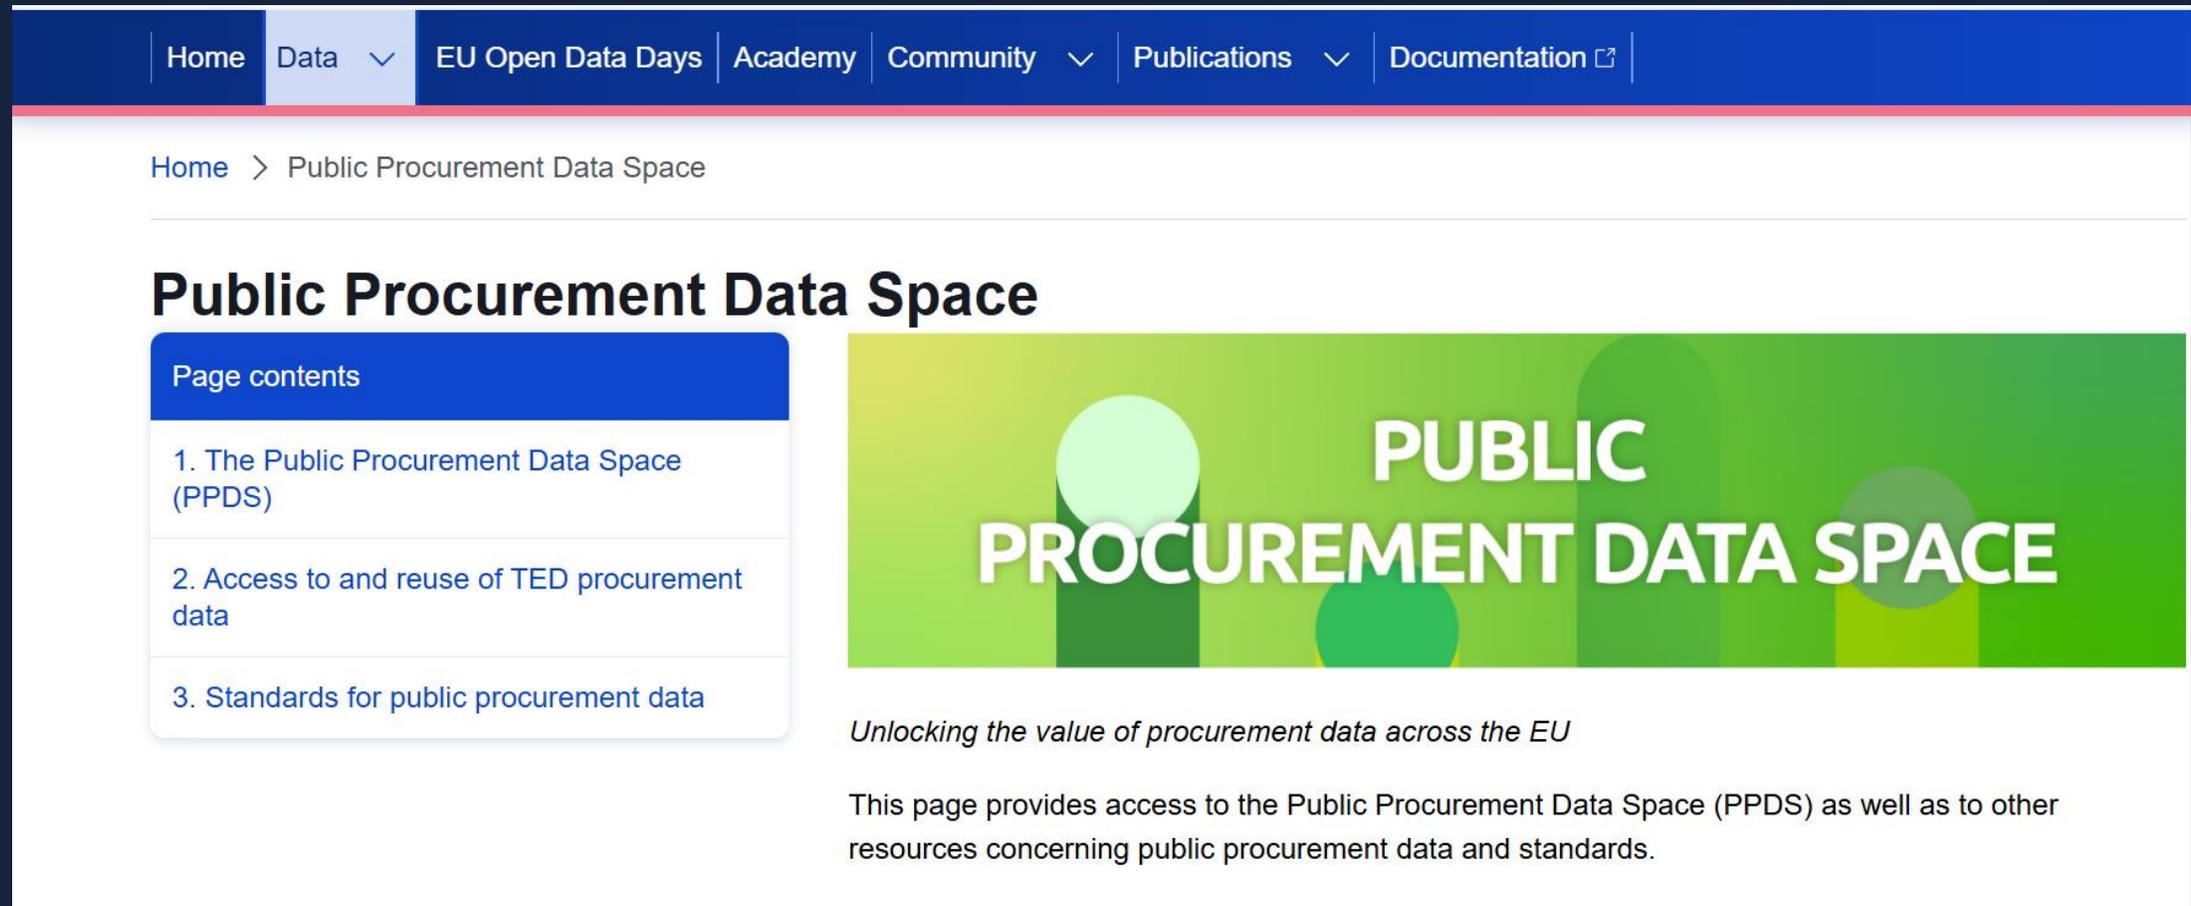

TED with broader coverage is also available in XML format at <https://data.europa.eu/euodp/en/data/dataset/ted-1>.
